LOCAL.

REV. MR. BRICK, left the Athabasca Landing for Peace river by the H. B. boats on September 23rd. His stock was being driven overland and there was likely to be considerable difficulty in getting the animals through safely, as there is no road.

Rev. Mr. Garton late C. M. S. missionary at Fort Simpson recently told the Winnipeg Sun that the Indians of Fort Wrigley on the Mackenzie had found a yellowish metal which they used as shot for killing birds. The metal is supposed to be gold.

TREATY payments in Battle river agency were commenced at Battle river on Monday and finished on Wednesday. Norris & Carey and Daly & Co. of Edmonton, W. Macdonald, Padmore, Laboucan and Hamelin of Battle river were the traders present.

It is reported that there are with Keeska-wa-sis on the Stony Plain, three white men and a negro from across the lines. The white men are named respectively, Davis, Wilson and Williams, and the negro, Hoick. George says he was unarmed until he reached Battle river when he bought a gun, also pair of moccasins.

MESSRS. YOUNG and Becher of the Hudson's Bay Company, and T. Edmundson arrived from a hunting excursion to Beaver lake on Friday afternoon. Messrs. Hardisty and Beston left Beaver lake for the east on Tuesday. On the way out Mr. Beston killed a bear in the Beaver hills. The party also killed a jumping deer, and made a good hunt of ducks and geese besides.

THE vote on the erection of Edmonton Roman Catholic separate school district took place on Thursday afternoon in Bannerman's hall, and resulted in favor of a school district with the same boundaries as the Edmonton Protestant public school district. Geo. Roy, L. Kelly and A. Prince were elected the first board of trustees. The school will probably be opened about November 1st.

The Toronto Mail of September 17th gives a very complimentary notice of the Alberta products displayed at the Toronto exhibition in charge of Jos. Maw, of Calgary, also a very fair statement of the nature and capabilities of the district, which is especially recommended for ranching and mixed farming. Special mention is made of the Red Deer and Medicine Hat exhibits. The Mail professes astonishment that over 75 bushels of oats to the acre can be raised in Alberta.

H. LONE of the Sturgeon, has Cuthbert raspberries from the Loudon nurseries, planted in '86 which began bearing fruit in '87, and have been bearing luxuriantly this season from the first of August to the present time. The bushes are perfectly hardy, having had no special protection either of the two winters they have been out, and not having frozen back a particle. Fay's prolific red currant planted at the same time and given the same treatment has frozen back a little. The Houghton gooseberry also planted at the same time and left unprotected has frozen clear to the root each winter, but has grown again each summer. Mr. Long will protect it this winter in hopes of more favorable results. Some black raspberries planted last spring have done well, but what they will do during the winter remains to be seen. A single cultivated cherry tree planted last spring has also done well. Black Naples currant bushes planted in '86 have made an excellent growth and are perfectly hardy—as much so as the wild black currants planted alongside, and have yielded as well this season. Black currants growing wild have been very plentiful this year for the first time since '82, while those of the same kind planted in the garden have done well every year.

C. CHABLE, who was mining at Rocky Bar about ten miles up the river from town on the Stony reserve, came to town Saturday afternoon and reported that during his absence from his tent working in the river on Friday afternoon some person or persons visited it and took all the provisions he had there away, including bacon, sugar, raisins, apples, bread, tea, coffee, etc. His flour would doubtless have gone too but it was in his canoe. On the previous Sunday he had noticed the tracks of two persons near his camp, one wearing large moccasins and the other small boots. He saw the same tracks again on Saturday morning. As there were evidently two thieves and he was alone and unarmed he did not attempt to follow them. Although no one lives on the south side of the river he saw there on the flat below his camp a few days before, a poor cayuse horse, light bay with white spot on forehead and white hind legs. Report has it that George Keeska-wa-sis, and his Montana companions are lurking on the Stony reserve, keeping their horses on the south side of the river, and Mr. Chable thinks they are the parties who robbed him. From the reputation of these parties he does not feel justified in starting work there again alone and must seek less profitable employment. It is about time the authorities were bestirring themselves regarding this outlaw. Property and even life are not safe while he and his companions are at large.

THE Northwest Gazette of September 22nd contains the appointment of B. B. Lariviere, of Peace river, Athabasca, as a magistrate; of Wm. McKay of Lesser Slave lake, Athabasca, as issuer of marriage licenses; of H. B. Gordon, Regina, clerk of the assembly, to be Queen's printer, instead of A. E. Forget, resigned; and of L. O. Bourget to be sole issuer of billiard and other table licenses instead of R. B. Gordon, resigned.

HON. JAS. TURNER, of Hamilton, Ont. father of John T. Turner, of Clover Bar, who visited Edmonton some years ago, and ever since in his place in the Senate and elsewhere has taken a lively interest in public affairs here, had an operation for cataract performed upon his left eye in Buffalo lately. The operation was more difficult than usual but was successful. The right eye, which is also affected, will be operated on some months hence, it is to be hoped with full success.

RIFLE MATCHES.

The third annual match of the Edmonton rifle association is now in progress over the association ranges on Ross' and the H. B. flat. The matches were opened on Friday, 5th inst at 9 a. m. by Mrs. Hardisty firing the first shot, scoring a bulls eye. A number of ladies were present, and the weather was most favorable, except that a light wind was blowing across the range. There were 24 entries in the Patron's match, which was commenced at 9 a. m. and finished at 12:30 p. m. The Vice-Patron's match was next entered upon and was not concluded on Friday evening. The matches are being continued to-day and will probably be concluded on Monday.
